

Welcome Current and Future IFMA Members,

As you and I know effective maintenance processes and procedures is what makes an organization thrive or not. It is especially important now, through these challenging economic times. Budgets are leaner, reductions

in force are more frequent and out-sourcing / out-tasking have become a consideration.

CE Maintenance Solutions, LLC can help through our training programs (public and on-site), consulting and mentoring opportunities. Please visit our website at:

www.cemaintenancesolutions.com to learn more about how we can help you move toward your maintenance objectives.

If you plan on attending this year's **NFM&T** conference, I hope you will stop by our booth and attend our workshops.

Michael B Cowley,
President

In support of the IFMA mission, CE Maintenance Solutions is pleased to offer a **10% discount** for all IFMA members who attend any of our training programs.

Review our schedule of events section for a listing of programs and locations. It is constantly being updated so check back often.
